

Three-Day Mini School

Get Serious About Improving Your Game Dramatically, With A Three-Day Mini School, Custom Tailored Just For Your Game!

No matter what you currently shoot, when you are looking for dramatic game improvement and lasting results, our most popular program is our Three Day Mini School. This school is the ideal setting for improvement in all aspects of your game.

Your custom learning experience features 9 hours of world class golf instruction, in an open and relaxed environment. While we focus on the parts that YOU want to improve the most, here's a look at what your day might include.

Two days are dedicated to full-swing instruction and one day to the development of your short game (see below for a typical itinerary). The school also includes extensive video and computer analysis, a static club fitting evaluation, as well as a specific plan for ongoing improvement on a take home DVD. Limited to 4 students per session, you'll get the personal attention you needs for quick and lasting results with your game!

Three days Mini Schools are available 9 a.m. to noon or 2 p.m. to 5 p.m., depending on location, giving you plenty of time to test your improved swing on the course or simply relax by the pool. Our world class resort partners are the perfect complement to your exceptional instruction experience.
